

How can technology help revision?

YouTube

- 1000s of videos across all subjects.
- Short repetitive revision.
- Concepts explained in a different way.
- Revision on the go – even on the bus to school!
- Create playlists – share with your friends.

BBC Bitesize

- Revision Notes – good if you are missing any lessons.
- Quick tests the students can use to check their understanding.
- Resources matched to exam specification.

Memrise

- Memrise – Fantastic tool for learning keywords.
- The software learns the words you are struggling with the most.
- You can set yourself daily goals.
- Compare scores with your friends.

Rotation around the sun

The stars that you see in the

Resistance

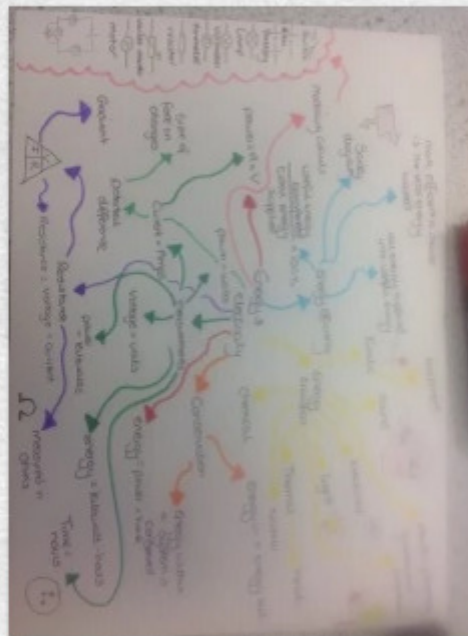

The relationship between voltage, current and resistance is called Ohm's Law

There are 8 types of energy they are

- kinetic
- Heat
- Electrical
- Light
- Sound chemical
- Elastic potential
- Gravitational potential

Circuits

In a series circuit the energy only goes in one direction

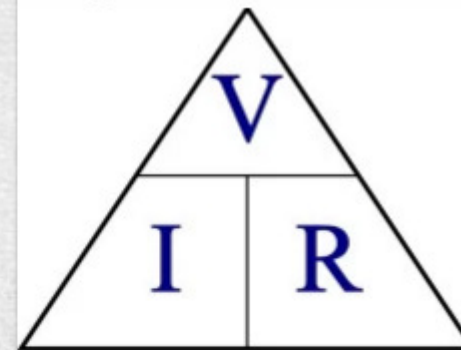

Voltage, Current and Resist

Harry

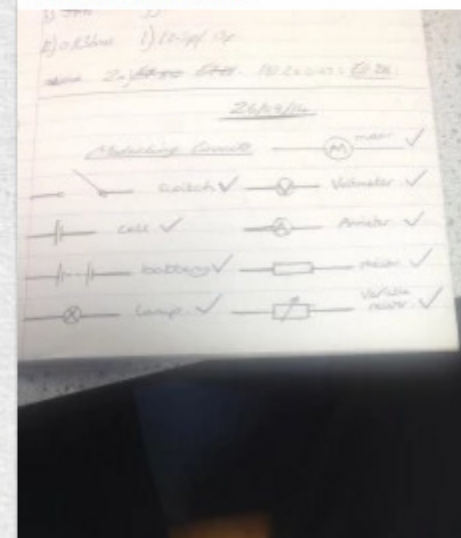

Forces can change the shape of objects and change the way they

Ohm's Law

Voltage=Current x Resistance
