Over to you!

- Mind map what you know about averages...

What should it contain?

- Four main strands
- Definition?
- Method needed
- Order of this?
- What about calculating from the different types of data presentation that are in the exam...? Stem and leaf / frequency tables as well as raw data

How to produce?

- By hand
- Publisher / word
- Websites will do it for you
 - Lots of free sites that will help you generate a certain amount of mind maps for free
 - Need registration with an email address (use several?!)
